

# Animal by-products (ABPs): compliance

Steps for researchers at NAT  
Please see more in the  
Guidelines at the Faculty of science, SDU

## Step 1:

Identify if the ABPs bear the danger of STDs according to the Lists of diseases

## Step 2:

Identify the category that the ABPs fall under (C1, C2 or C3).

## Step 3:

Find the facility in the List of approved facilities according to the type of the ABPs.

## Step 4:

Contact the facility and dispose of the ABPs respectively.

*If you have any questions about ABPs and legal compliance - please contact legal advisors at [RIO\\_contracts@sdu.dk](mailto:RIO_contracts@sdu.dk), at NAT [olen@sdu.dk](mailto:olen@sdu.dk) and the Head of Department for clarifications and support*
