

ERC Masterclass at SDU

The ERC grants are the most prestigious European excellence grants and support outstanding researchers at all career levels. SDU is proud to announce this year's masterclass, provided by *Enspire*

REGISTRATION TO THE TRAINING: 16 May 2022 – 29 May 2022

Registration to the ERC training will open on 16 May 2022. On Registration to jande@sdu.dk you will receive an information sheet s with an explanation about the process and the course. This document will also include a link to an [online registration form](#), which every participant will be asked to fill in in order to sign up. Due to GDPR regulations, we will not be able to grant access to participants who will not register through this form.

We will also provide a link to an online table, where you can track the registration process live and see who signed up.

PRE-RECORDED “ERC BASICS” ONLINE COURSE: 31 May 2022 – 13 June 2022

The “ERC Basics” online course will be available starting 31 May 2022, and registered participants are invited to watch it when most convenient to them during the time period mentioned above.

The course will be available until 13 June 2022 (including).

PRE-RECORDED “ERC BEYOND” ONLINE COURSE: 14 June 2022 – 29 June 2022

The “ERC Beyond” online course will be available starting 14 June 2022, and registered participants are invited to watch it when most convenient to them during the time period mentioned above.

During the course, participants may submit questions for our team (as long as they are not project-specific), which will be answered during the live Q&A.

The course will be available until 29 June 2022 (including) - this will give participants time to re-visit the course in light of the discussion in the Q&A, if needed.

DEADLINE FOR COMPLETING THE ONLINE COURSE: 27 June 2022 at 13:00 (your time)

In order to allow a meaningful live Q&A session, watching the “ERC Beyond” online course is a mandatory prerequisite to joining the live Q&A. The rationale behind this is that the live session is only complementary to the pre-recorded online course, which is the main part of the training. Since the aim of this session is only to clarify and provide more detail where needed on top of the online course, we do not think that attending the Q&A would have an added value for those who did not watch the course. On top of that, questions coming from participants who did not watch the course could seem redundant to those who did. For this reason, we will only send out invitations to the live Q&A to participants who complete the “ERC Beyond” online course on time. This will be clarified to the participants in the beginning of the process.

Live Q&A: 28 June 2022 at 10:00 (your time)

We will send out invitations to the live Q&A directly to all relevant participants.
