

# STEPS FOR GENETIC RESOURCES RESEARCH AT SDU

STEP 1

## GENETIC RESOURCES OR NOT?

Check if your materials really belong to genetic resources and traditional knowledge with SDU checklist

## FIND LEGAL SUPPORT

If YES – contact your SDU legal council for further assistance in obtaining the PIC and negotiating the MAT with the providing country

STEP 2

STEP 3

## BOOST YOUR COMPLIANCE

Read more about requirements of Nagoya Protocol in *SDU Guidelines* for researchers at the Faculty of Science

## GET READY FOR CHECKS

Make sure that all the documents regarding your research connected to genetic resources are obtained, saved and stored safely

STEP 4

STEP 5

## STAY ETHICAL

Share your benefits with the providing country and use your genetic resources and traditional knowledge minding the standards of Access and Benefit Sharing (ABS)
