Cancellation from

1. Welcome

2. Status meeting report

- **SWOT analysis:** The UUV discussed strengths, weaknesses, Opportunities and threats of the programme with specific focus on job opportunities.
- **Sub policies:** The UUV agreed to write what had been discussed at the prior UUV meeting as well as at the advisory board meeting.
SDGs: The UUV elaborated on the fact that there are no less than 2 mandatory courses that goes through the SDGs.

3. Teaching evaluations

All courses are rated green. The UUV is satisfied and has no concerns.

The UUV went through the comments from the students which were generally positive even though most of the semester has been taught online due to COVID19.

The students especially appreciated when the teaching had been planned in advance, so they knew what to prepare for when. The students also appreciated that the teachers have been very helpful in general. Gang will have a meeting in August to share knowledge of how to do effective online teaching, since most courses will be online in September as well.

4. Evaluation of the programme

The students seem satisfied and the score is 4.41. Next week there will be a meeting with the students to do a quantitative evaluation where they can elaborate and give further feedback.

5. Advisory board meeting

The advisory board suggested to have meetings where the students and the companies can meet each other. The students can present their master projects and the companies can talk about what they are looking for in new employees and what exactly their jobs entail.

6. Any other business

Jakob is mentor for the new students and would like to introduce the new students to the main teachers on the introduction day on September 1st
