#### **Minutes of meeting**

Subject:	Executive meeting
Date and time:	September 25, 2019 at 10.00-12.00
Participants:	Jesper Bo Nielsen (JBN)
	Danish Centre for Health Economics/DaCHE: Dorte Gyrd-
	Hansen (DGH)
	Health Promotion: Pernille Tanggaard Andersen (PTA)
	Environmental Medicine: Philippe Grandjean (PG).
	Clinical Pharmacology and Pharmacy: Kim Brøsen (KB)
	User Perspectives: Birgitte Nørgaard (BN)
	Epidemiology, Biostatistics and Biodemography: Kaare
	Christensen (KC)
	DGH og PTA deltog frem til punkt 5.
Cancellation from:	General Practice: Jens Søndergaard (JS)
Taken by:	Line Bach Ulstrup (LU)

(The Executive meeting in August was cancelled)

#### Agenda:

1.	News from IST	Finances: Second round meeting with the dean and the
		central budget dept. took place in mid-September. IST had
		been asked to end up with a deficit, but our researchers are
		so enormously talented as regards to obtaining grants and
		the result for 2019 is expected to be a surplus of around DKK
		2.4 mill.
		IST-secretariat: Still working on a centralized IST
		administration, so that the tasks are carried out by specialists.
		The units in Esbjerg will share the same address at the new
		campus from the summer of 2020. The Esbjerg administration
		will then consist of 1.5 secretarial position. In connection with
		the centralization of IST finances, 1 new finance assistant will
		be employed.
		Cooperation agreements: It is not allowed to use SDU
		resources on external work unless you have a written
		cooperation agreement – this applies to both Danish and
		foreign projects. The heads of research are required to make
		this clear to all researchers.

# SDU 🎓

		ORCID: Only a few registrations are missing. Primarily from new PhD-students. Thanks to everybody for the effort. <u>zExpense for non-employees:</u> From October 1, 2019 non- employees, e.g. lecturers and external examinators (with a "NemKonto") must use zExpense for reimbursement of travels and expenses. <u>Open Access:</u> IST wants to support the SDU publishing policy and thereby help PhD-students. Funds to support of PhD- student Open Access expenses are planned. More information can be found in the below enclosures incl. links.
2.	News from SUND	<ul> <li><u>CPOP</u>: The researchers still have offices in WP 9, even though they are affiliated with Social Science. IST needs the space, and the dean at Health Sciences is keeping up the pressure to get a solution.</li> <li><u>Vice-chancellor – Strategic funds</u>: Despite the short respite, applications with IST participation (e.g. DGH) were sent and have proceeded to the second round.</li> <li><u>New campus Esbjerg</u>: Official start of building activities is October 1, 2019.</li> <li><u>Master's programme in medicine, Esbjerg</u>: Very positive start. Several of the new bachelors have asked for a guarantee of having the Master's programme in Esbjerg (which unfortunately is not possible).</li> <li><u>Health Sciences</u>: Torben Durck Johannesen has returned to the Faculty Secretariat and will in future deal with e.g. NytSUND.</li> </ul>
3.	News from ISO	International Staff Office (ISO): Regarding guest/non- employee PhD-students who are not EU citizens: problems may arise in case of childbirth or illness. The personnel office does not automatically get a notice about the absence, which is the reason why notice must be sent to <u>iso@sdu.dk</u> with information about illness or childbirth. When non-EU citizens are employed, IST is responsible for ensuring that they have a work permit. Please pay special attention to employment of students, who may experience serious problems if the rules are not observed. If you have questions, please contact your unit secretary, LU or ISO.
4.	Work environment	<u>Measurement of asbestos:</u> Measured across old buildings at SDU. In WP 9 they found a little – but clearly below the limit,

and it has been assessed not to constitute a significant risk as

long as you leave it alone.

## SDU 🎓

		<u>Annual wheel:</u> The IST-group holds a meeting in the end of October about planning and status of present work
		environment activities.
		APV: IST has by and large finished the APV. However, still
		awaiting commitment from Technical Service about
		curtains/solar blinds in WP 9 + 17 + 19.
		s University Council: The new brand-platform as well as the
	and committees	many consequences throughout the system have been
		discussed.
		Associate professor Casper Sylvest, Faculty of Arts, has
		expressed a wish for an independent SDU newspaper.
		Lars Engelstoft and Maéva Vignes from RIO have
		participated in a discussion about transfer of data to the US.
		Notifications about scientific misconduct should no longer go
		to Jørgen Schou but to a lawyer who is not part of the vice-
		chancellorship.
		Academic Council: Received a visit from Kim Brixen, who
		explained about "Waste in Research".
		Novo Nordisk Foundation: SDU does not have as many
		applications to the foundation as expected on the basis of
		size. Request for applications (RFA).
5.	Comments from	PG: Has had a meeting with the SDU management about
