Dear {{reputationContactDetails.contactTitle}} {{contact.first_name}} {{contact.surname}},

We are contacting you because your academic perspective is valuable to the University of Southern Denmark (SDU).

You have been suggested as a relevant academic contact for the QS Global Academic Survey by {{reputation.primaryContactManager.title}} {{reputation.primaryContactManager.firstName}} {{reputation.primaryContactManager.surname}} from {{reputation.primaryContactManager.department}}. You have been identified as an academic whose perspective and expertise can contribute to the quality and relevance of the survey. We would therefore like to ask for your permission to share your contact details (name, title, institution, and email address) with QS, so that they can invite you to participate in the survey.

Do you consent to SDU sharing your contact details with QS?

YES

If you do not consent, click here.

If you consent, QS will contact you in the coming months with an invitation and up to two reminders. The invitation will be sent from rankings@qs.com. We recommend adding this address to your list of safe senders and checking your spam folder.

The collected data will only be used in aggregated form. QS will not contact you for any other reason, or in relation to more than two editions of the annual survey, without further or separate consent. Your responses will be combined with responses from other participants around the world and included in the calculation of academic reputation indicators. These indicators are used, where relevant, in the QS World University Rankings at global, regional, subject and programme-related levels. You can find further information here.

On behalf of the University of Southern Denmark (SDU), we would like to thank you in advance for considering our request.

Kind regards,
Freja Rosenlund
Coordinator for International Ranking
University of Southern Denmark (SDU)
