1. **Personal information**
   This area contains information about the employee's name, title and address.

2. **Personal information continued**
   This area contains information about the employee's name, salary number (CPR-number + 3-digit serial) and the issuance date of the payslip.

3. **Net Salary**
   Short overview of the final amount transferred to the bank along with the date from which the amount is available and the transfer method. In this example NemKonto is used.

4. **Salary Information**
   Under salary information there are salary components and salary periods if relevant. Salary components are the elements of the total salary, each with a unique code and descriptive text. Examples include base salary, Qualification supplement, assistant/associate professor supplement etc.
   Salary periods indicate the time frame for which each salary component is calculated if relevant. The top line shows the current month as standard.

5. **Note area**
   An area designated to show different relevant notes for each payslip such as the ongoing accrual of special holiday pay and timing of payment. Another example is TIN-number if relevant.

6. **Tax Information**
   Information about the employee's tax card or scheme is provided here. It can show as primary tax card with personal deductions listed under 'Deduction'' and the taxation percentage. It can also be shown as a regular secondary tax card.
   NOTE: If an employee is on the tax scheme for researchers, it will show as a secondary tax card with a taxation percentage of 27.

7. **Employment information**
   The area shows details about the employment of the employee including salary level, promotion date and working hours.

8. **Pension Contribution**
   All details regarding the employee's pension contributions are shown here.
   If an employee chooses to have all of the pension contributions paid out as salary, this area will be blank and the amount will figure in the Salary Information area.
